

## **San Antonio Conservation Society Foundation Library Image Use Policy**

Any person failing to abide by these terms may be denied further access to, and use of, the materials in the library's collections. This use policy may change without prior notice.

### **Terms of Use**

- Photographic materials do not circulate outside the library, except for authorized reproduction or for an activity approved by the Society president.
- A use fee per image/per use may be assessed for all items in the photographic collection, in addition to the cost of image reproduction. Please see the fees listed on the price list. The Society president may waive fees for uses that support the Society's mission. Requests for a waiver of use fees must be made in writing.
- All requests for commercial use of photographic material must be made in advance. The library reserves the right to determine whether a proposed use is commercial.
- Proper credit must be given to the San Antonio Conservation Society Foundation for the use of its images.
- The person who orders images from the library is responsible for providing verification that proper use of, and credit for, the images has been made. Please send the library a free copy of the published work in which the image appears, when possible, or a copy of the image, caption, and citation.
- Copies of images from the library in any media, including electronic or photographic, may not be deposited or placed on file in any other repository without the specific consent of the library, and may not be supplied to commercial archives or publishers for resale.

### **The Society's permission is required to publish or publicly display an image in any format.**

- Permission may be granted upon written request for one-time, non-exclusive use of images for publication or public display if the proposed use is approved by the Society president or her designee. Any subsequent use of the same image requires a separate application for permission.
- Websites using library images must credit the images to the San Antonio Conservation Society Foundation and contain a notice prohibiting unauthorized use of the images by third parties. Images may be reproduced at a resolution no higher than the equivalent of 72 dpi for a 4" x 5" image.
- The library is not responsible for others' illegal or improper use of its photographic material. If copyright is known to exist, the patron must obtain permission for use from the copyright holder and provide the copyright holder's written consent before requests for use of the material can be granted.
- The library reserves the right to refuse permission for use, or to revoke permission, if materials are used for any purpose other than that stated on the request form.
