## STATEMENT:

TO: Historic and Design Review Commission, City of San Antonio  
RE: Item B-9: 419 S. Hackberry Street  
HDRC Case No. 2019-147

The San Antonio Conservation Society would like to support the landmark designation of 419 S. Hackberry. The building was constructed c.1926 as an ice house and was associated with several prominent local ice manufacturing companies. This diminutive structure was built in the Spanish eclectic style with its wall caps of red clay barrel tile and distinctive cast stone parapet sign advertising "ICE", a throw-back to the days when ice houses were a common sight throughout San Antonio.

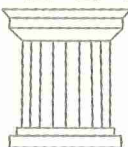

We hope that the designation of this building will encourage its timely rehabilitation, allowing it to again contribute to the rich history of the East Side.

Thank you.
