

November 6, 2019

STATEMENT:

TO: Historic and Design Review Commission, City of San Antonio
RE: Agenda Item A-9: 1009 Avenue B
RIO District: RIO-2
HDRC Case No. 2019-598

The Conservation Society of San Antonio concurs with the OHP staff recommendations concerning this proposed food truck venue. Development of this site should meet the Building Standards for the River Improvement Overlay and be designed to complement both the San Antonio River Walk and the River North neighborhood. The impermanent and cluttered impression that shipping containers and food truck stations convey is not appropriate for such a prominent river front site.

Respectfully submitted,

THE CONSERVATION SOCIETY OF SAN ANTONIO

Patti Zaiontz, President
