STATEMENT:

TO: Historic and Design Review Commission, City of San Antonio
RE: Item B-10: 434 Sherman
Historic District: Dignowity Hill
HDRC Case No.: 2019-117

The Conservation Society of San Antonio concurs with the OHP staff recommendation regarding the proposed project at 434 Sherman in the Dignowity Hill Historic District. The proposed project is out of scale with the neighboring structures and the fenestration patterns are inconsistent with those found throughout the Dignowity Hill Historic District.

We urge the Historic and Design Review Commission to encourage the owners to develop a project more in keeping with the historic context of Dignowity Hill.

Respectfully Submitted,

THE CONSERVATION SOCIETY OF SAN ANTONIO

Patti Zaiontz, President
